

## Universal Electronics Inc. Introduces QuickSet® Widget for the Connected Home

February 9, 2021

**New offering simplifies upgrade of OEM products with secure connectivity, interoperability with other devices and a better support framework**

SCOTTSDALE, Ariz.--(BUSINESS WIRE)--Feb. 9, 2021-- [Universal Electronics Inc. \(UEI\)](https://www.businesswire.com/news/home/20210209006214/en/) (NASDAQ: UEIC), the global leader in universal control and sensing technologies for the smart home, is introducing QuickSet® Widget. This offering combines UEI's unique capabilities in high-volume hardware and software to enable interoperability by making it easy for OEMs to upgrade their products to be connected, managed and secured; and deliver ongoing support and services in a cost-effective and scalable manner.

Universal Electronics Inc.'s (UEI) QuickSet® Widget combines UEI's unique capabilities in high-volume hardware and software to enable interoperability by making it easy for OEMs to upgrade their products to be connected, managed and secured; and deliver ongoing support and services in a cost-effective and scalable manner. (Graphic: Business Wire)

QuickSet Widget modules are available with built-in Wi-Fi and Bluetooth Low Energy connectivity to provide seamless connection to the cloud and other devices in the home, which can be extended with support for Zigbee devices through UEI's UE878 multi-protocol chip and modules. QuickSet Widget's hardware development

kit simplifies the process for OEMs in creating connected products and experiences.

UEI's [QuickSet Cloud](#) provides a scalable platform for simplifying onboarding and control across entertainment and smart home devices, already in use by many leading brands. QuickSet Widget is integrated with QuickSet Cloud device management services, including a remote management dashboard and mobile software development kit to deliver turnkey capabilities for onboarding, interoperability, management and lifecycle support of connected home products.

QuickSet Widget is also pre-integrated with the new [UEI Virtual Agent](#) service, which provides a complete support framework for connected devices, enabling self-help capabilities on and off device, including guided product onboarding, feature discovery and troubleshooting.

QuickSet Widget modules and hardware development kits will be available for sampling in Q2 2021 with volume shipment in Q3 2021.

"QuickSet Widget expands UEI's portfolio in enabling complete digital transformation of the end user experience across several connected home product segments including HVAC, audio visual and appliances," said Arsham Hatambeiki, Senior Vice President of Products and Technology at UEI. "Combining our strengths in secure hardware, connectivity and user-focused software features, we have reimagined the lifecycle of connected products from onboarding, interoperability and ongoing support. QuickSet Widget is a secure and reliable connectivity solution, pre-integrated with QuickSet Cloud services delivering device management, telemetry and interoperability; as well as the UEI Virtual Agent delivering continuous support for connected products."
