References to Adjusted Non-GAAP information are to non-GAAP financial measures. These measures are not required by, in accordance with, or an alternative for, GAAP and may be different from non-GAAP financial measures used by other companies. UEI's management uses these measures for reviewing the financial results of UEI for budget planning purposes and for making operational and financial decisions. Management believes that providing these non-GAAP financial measures to investors, as a supplement to GAAP financial measures, help investors evaluate UEI's core operating and financial performance and business trends consistent with how management evaluates such performance and trends. (1) The three and nine months ended September 30, 2023 and 2022 include unabsorbed manufacturing overhead costs resulting from the expansion of our manufacturing facility in Mexico where products destined for the U.S. market are manufactured, exacerbated by a subsequent decline in production volume. These products destined for the U.S. market were previously manufactured in China. The three and nine months ended September 30, 2023 also include manufacturing inefficiencies associated with our new Vietnam factory which recently commenced operations in the latter part of June 2023. In addition, for the nine months ended September 30, 2023, we incurred normal start-up costs such as idle labor and training associated with this same factory prior to its commencement.

(2) The three and nine months ended September 30, 2023 include impairment charges relating to machinery and equipment and leasehold improvements associated with the closure of our southwestern China factory, which ceased operations in September 2023. In addition, we also incurred impairment charges relating to machinery and equipment at our Mexico factory as we are reducing its capacity due to lower demand.

(3) Consists of depreciation related to the mark-up from cost to fair value of fixed assets acquired in business combinations.

(4) Consists of expenses related to our various litigation matters involving Roku, Inc. and certain other related entities including three Federal District Court cases, two International Trade Commission investigations and the defense of various inter partes reviews and appeals before the US Patent and Trademark Board as well as other non-recurring legal matters.

(5) During the nine months ended September 30, 2023, we recorded a goodwill impairment charge of \$49.1 million as a result of our market capitalization being significantly less than the carrying value of our equity.

- (6) The three and nine months ended September 30, 2023 include severance and equipment moving costs associated with the closure of our southwestern China factory.
- (7) The three and nine months ended September 30, 2023 includes severance costs associated with a reduction in headcount at our corporate offices.
- (8) The three and nine months ended September 30, 2023 include a \$1.4 million valuation allowance recorded against the deferred tax assets at our southwestern China entity as a result of its closure.
