

ADVISORY/Universal Electronics Demonstrates Innovation in Control Technology for the Broadband Home At Connections: The Digital Home Conference and Showcase

May 6, 2005

--(BUSINESS WIRE)--Universal Electronics (Nasdaq:UEIC)

WHO: Universal Electronics (Nasdaq:UEIC) delivers wireless home and digital control technology designed to enable consumers to wirelessly connect, control and interact with an increasingly complex home environment.

WHAT: Connections Conference attendees are encouraged to join Universal Electronics at the following events to learn about must-have innovations in home control solutions that enable consumers to seamlessly and effortlessly control the growing complexity CE devices and digital content pouring into the networked home:

-- Panel Discussion -- UEI president and chief operations officer, Robert Lilleness will participate in the Connections' panel, Track A: "Digital Entertainment and Multimedia Applications: Changing Consumer Habits," on Thursday, May 12 from 1:15 p.m. - 2:30 p.m.

-- Product Demo -- Join UEI at Booth #109 for a first hand look at the latest innovation in control technology for the broadband home and celebrate the commercial availability of this first in class product, which will be formally announced on May 11th. UEI executives will also be on hand to discuss the growing complexity of the home environment and the challenges consumers face in managing an ever-expanding menu of digital entertainment content across various CE devices.

WHEN: Wednesday, May 11 to Friday, May 13, 2005

WHERE: The Hyatt Regency
1333 Bayshore Highway
Burlingame, CA

More information about UEI can be obtained at <http://www.uei.com>.
