

Universal Electronics Redefines Home Entertainment Control and Sensor Technology at CES 2016

December 28, 2015

UEI Highlights Leading Edge Sense and Control Solutions Ranging from Predictive Cloud Software to Advanced Voice Remotes and Wireless Sensing Products

SANTA ANA, Calif.--(BUSINESS WIRE)--Dec. 28, 2015-- [Universal Electronics Inc.](#) (NASDAQ: UEIC), the worldwide leader in sensing and control technologies for the smart home, will showcase brand new design innovations that promise to redefine the home entertainment control and residential security experience at CES 2016 in Las Vegas, January 6 - 9 at South Hall 1 (lower level) booth #20612.

AT CES this year, Universal Electronics will demonstrate first-of-its-kind wireless home safety and security sensors, in addition to its new ground-breaking consumer AV solutions.

- **Home Safety and Security from [Ecolink](#)** – The company's new portfolio of state of the art, universally compatible, intelligent sensing solutions to address common home intrusion, monitoring and control challenges, including innovative new **flood/freeze wireless sensors, automated light switches and window/door sensors.**

Universal Electronics will also debut its most advanced AV control software and hardware for remote controls - which promises to significantly improve all home entertainment setup and control.

- **[QuickSet®](#), UEI's effortless setup and control solution now comes in two flavors:** Announcing **[QuickSet Cloud™](#)** and **[QuickSet® 3.7](#)** with a breakthrough Predictive Engine. Experience the latest versions of the cloud-based and embedded software solutions empowering consumers with simple, automated setup and complete control of wired, wireless and IP-connected home entertainment devices.
- **[Designovation](#):** an annual exhibit that showcases UEI's design expertise in creating next generation product concepts, including **UEI REACT** - an **interactive color LCD remote control**, that offers a glimpse into the future of home entertainment control and monitoring.
- **Core Technologies:** demonstrations of the latest commercially deployed advanced control products including voice-enabled remotes from the most recognized brands in consumer electronics.

UEI's Sense and Control: Redefined experience at CES 2016 in Las Vegas is by invitation only. Contact UEI for more information and to reserve your appointment at the show. For more information visit: <http://www.uei.com/CES2016>
